

NOC Number One CW Contest General Rules

- 1) We're doing this for fun, not to beat the hell out of each other.
- 2) Work anybody you can.
- 3) Life's tough enough, forget using mechanical keys or QRP.
- 4) Don't sit on a piece of rock and freeze yourself silly or get eaten alive by bugs.
- 5) Follow common sense and experience.
- 6) Don't speed up / slow down bits of exchanges.
- 7) Everybody is 599, so just forget about it.
- 8) If you identify yourself as a NOC'er, you don't need to send your membership number or your name – we're all #1 and Juan.
- 9) You can greet and get rid of other members by using a hearty '11'
- 10) Why waste time using 'TU'? Just send 'X' like most operators. They'll love you for it.
